

My dad is a trucker for J.B. Hunt. When I call him, I ask where he is heading and I get the weather information for him from my XM system. It has helped him a lot, expecially with the weird weather we had this winter! Please don't let the petition pass. I can't stand not knowing what my father is driving into! This petition is against the constitution! The XM family has the right to free speach as set forth by the first ammendment! With XM I get the weather when ever and where ever I go!

Respectfully Submitted,

Sophia Cornejo
